SCOPE OF WORK:

Koontz Electric Company Inc. (KECI) was awarded the UNIMIN EXPANSION OF TAILINGS PROCESS Project in June of 2014. The project is located at the Unimin Plant in Guion, AR. Unimin is one of North America's largest producers of non-metallic minerals.

KECI's primary responsibilities for this project included

- Installation of a new tailings thickener, plate press, and pumping associated with the new process.
- Install grounding, trim out 4 new switchgear buildings, and install new switchgear at all building locations.
- Install conduit, power wire, and control cable at all 4 locations.
- Will oversee testing and commissioning of new control systems.
