SCOPE OF WORK:

Koontz Electric Company Inc. (KECI) was awarded LITTLE ROCK/ VA PARKING DECK SOLAR SYSTEM in February of 2015. The project is located in Little Rock, AR. The Central Arkansas Veterans Healthcare System needed to construct a four level parking garage to provide adequate parking to the veterans, faculty, and staff at the facility.

KECI was selected by Jarrett Construction (General Contractor) to work in conjunction to complete the project. KECI's primary responsibilities for this project include the following:

- Design and layout of a complete solar system which included Design of the new solar system layout to incorporate the installation of the removed(1440) solar panels , and design and layout of all required DC circuits for the relocated solar system.
- Removal and reinstallation of (1440) solar panels, racking systems, combiner boxes, transformers, weather stations, Modbus Hoppers, and all DC wiring from six existing canopy carport structures.
- Installation of (233) light fixtures in the garage structure.
- Retiming of lighting control system
- Installation of (3) electrical panels, (1) electrical transformer, and wiring devices in garage structure
- Installation of Communications System, Code Blue System, and Security System
