Barry Calloway (706)724-8225
Fax (706)724-8422

Project Start/Completion Date:

September 2007 / May 2008

Subcontract Amount:

\$2,842,643.00

Scope of Work:

LM Glasfiber remodel project for RW Allen took the old Celestica building, 7400 Scott Hamilton Rd, and turned it into a windmill blade production facility. KECI performed over 19,500 man hours in less than 3 months to complete the project. Crew size varied from 20 to 50 working the occasional night shift.

Scope of work included demolition of the existing electrical equipment, installation of 480V switchgear, MCC's, distribution panels, generator, lights, receptacles, and all the associated electrical in the plant. In addition, our work force assisted in the installation of the Denmark made fiberglass molds.
