

LOCATION: CORPUS CHRISTI, TEXAS
OWNER: TEXAS D.O.T.
GENERAL: BOH BROS. – NEW ORLEANS
SUBCONTRACT AMOUNT: \$2,000,000
CONTACT: DRUE WANDS – 504-821-2400

Scope Of Work:

This project involved rehabilitating a lift span bridge structurally and replacement/upgrade of the electrical systems while keeping the bridge with vehicular and rail traffic operational. Over 200 field I/O will determine the PLC Control of two synchronized 200 hp variable frequency drives to raise/lower the span and operate vehicular and railroad traffic control. Koontz Electric performed all electrical and instrumentation work, including checkout and start-up.
